The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological

developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. An assortment of 140 recipes for classic Cantonese family dishes is accompanied by an introduction to the philosophy and principles of Chinese cuisine, and advice on the techniques of Chinese cooking. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock"

stimulates solutions for a safer world. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. The Bulletin of the Atomic Scientists is

the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological

developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. *Biology of Sport* publishes reports of methodological and experimental work on science of sport, natural sciences, medicine and pharmacology, technical sciences, biocybernetics and application of statistics and psychology, with priority for interdisciplinary papers. Brief reviews of monographic papers on problems of sport, information on recent developments in research equipment and training aids, are also published.

Papers are invited from researchers, coaches and all authors engaged in problems of training effects, selection in sport as well as biological and social effects of athletic activity during various periods of man's ontogenetic development. In 2016, the world's oldest existing library reopened in Fes, Morocco. It opened for the first time in the 9th Century. These shrines to the written word date back even further, and continue to be built today. They're a place where some of the oldest written texts are preserved and some of the newest technology connects visitors with vast amounts

of knowledge. Libraries are changing, but, as places that are fundamentally free and open to all, they're also staying the same. *Libraries of the World* explores the most stunning examples, but it also explores how varied the idea of a library can be. It can be a grand Baroque hall with leather-bound tomes or a mid-century masterpiece, but it can just as easily be a few shelves in a repurposed phone booth. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan

Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security.
