Evil has plagued this world since the dawn of creation seeking to gain control. One family was given supernatural abilities with the sole purpose of protecting the things in this world that evil must never take possession of. Samantha Nelson knew she was cursed. She didn't know that her unnatural ability of forcing the truth out of people was just the beginning of her curse until her family is murdered in a horrific home explosion. Six months later she finds herself face to face with a Knight Protector and her life is turned into utter chaos. When David received his assignment on his twentieth birthday he was told that his destiny would be entwined with a woman soon to be born and that his aging would be halted. Since the moment Samantha was born, David protected her from her enemies. As every Knight before him, he does so in the shadows. But David must face the facts that something even deadlier than her enemies is occurring. No matter how much he denies it, he is falling in love with her. When her enemies begin to discover ways around his protection and murder her family he is forced to make a decision of what is more important to him; his family or his assignment. All it takes is one warning sign of danger to convince him that he simply cannot live without Samantha and he takes a leap that will change their lives forever. Their only chance of survival is to discover what Samantha's destiny is and the journey leads them straight to the heart of the Knight family where they discover evil has infiltrated and it is up to them to stop the evil before it destroys the family and gains control of the very thing that God created the family to protect.

Readers familiar with Sam Pickering's delightful essays will certainly hope that the title of his latest collection is not intended as prophecy. A true original, Pickering offers observation on everyday life that never fail to sparkle with wit, insight, amusement, and wonder. Freely blending fact with fiction-"Writing makes liars of us all," he notes-Pickering ranges easily and amiably from his home base in Storrs, Connecticut, to his roots in middle Tennessee, with numerous side trips to observe the natural world to reflect on the bonds of family and friends. One essay finds him playing auctioneer at a local arts council event, jollying the attendees with "tattered country tales" and fanciful, extravagant claims for items being sold. In another piece, his tongue-in-check remarks about the split infinitive, when quoted in a newspaper, ignite a small controversy that lands him on radio talk shows and provokes a flood of sometimes angry e-mail. Yet, whenever the irritations of the human world become a bit too wearying, Pickering finds ready refreshment in the doings of birds and insects and the splash of sunlight on a tree or flower. Throughout these sixteen essays, Pickering implicitly heeds the advice he offers his son just before the boy must meet the parents of his prom date: "The good storyteller, I instructed Francis, heaps paragraph upon paragraph, just like a waitress serving mashed potatoes in a family-style restaurant." Having dined at the table of a master storyteller, readers will depart this collection feeling fully sated-indeed, well nourished. The Author: A native of Nashville, Sam Pickering is a professor of English at the University of Connecticut and author of eleven previous books of essays. His most recent collections are *Living to Prowl*, *Deprived of Happiness*, and *A Little Fling*. This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

Men and women in love are haunted by these questions. Love -- especially why it blossoms in relationships and why it later dies -- is a mystery to them. Will Our Love Last? A Couple's Road Map

solves this mystery by giving readers a new understanding of love -- an understanding they can actually use to evaluate the soundness of their relationships and to answer confidently the crucial questions that mystified them before. Based on hundreds of cases in his twenty-four years as a marital therapist and twenty-nine years in his own happy marriage, Sam R. Hamburg, Ph.D., explains how compatibility is the key to lasting love. He shows how compatibility on three major dimensions -- the Practical Dimension, the Sexual Dimension, and the Wavelength Dimension -- is essential to the mutual understanding and affirmation that keep love alive, and he leads readers through a simple but systematic procedure for assessing their compatibility with a romantic partner in these crucial relationship areas. Dr. Hamburg introduces a new technique, The Hand Rotation Exercise, to help readers express their degree of compatibility and then convey that visually to their partner. In addition, he presents two new original techniques for working through relationship conflicts and coming to agreement on difficult issues: His Way/Her Way and The Long Conversation. Written in a clear, direct style that is free of jargon, *Will Our Love Last?* empowers readers to make important relationship decisions that are intellectually and emotionally informed. *Will Our Love Last?* will help couples trying to decide if they should take the next step to a more committed relationship. It will aid individuals embarking on a new relationship, or who are between relationships, to evaluate the rightness of a new or prospective partner. And it will assist people who are already in committed relationships to make an honest assessment of their prospects for happiness with their current partner. People have it in their power to make sure that they truly are with the right person. *Will Our Love Last?* shows the way. Written by Microsoft's lead developers of Excel Services, this book shares their insights into the benefits and usage of Excel's new server technology so that you can solve business problems. You'll learn what Excel Services is for and how it is used, how to deploy an evaluation copy of the server and effectively administer it, and gain an understanding of how the server works. You'll also get step-by-step guidelines for using the server in each of the scenarios for which it was designed. A nomad fashion's a home that's meant to be built and rebuilt. A family tears down an old house and erects a new one in its place. Even the Eiffel Tower wasn't meant to be anything more than temporary. As humans, we don't always build things to endure the test of time. *Built to Last* brings together the award-winning author and artist David Macaulay's creative, exacting thinking about buildings and designs that were crafted with a strength of structure and purpose that defy the everyday: Castle, Cathedral, and Mosque. This gorgeous volume includes newly researched information about each building and how it was built. And, for the first time ever, the Caldecott Honor-winning Castle and Cathedral appear in full color—with stunning new drawings that enrich the reader's understanding of these structures, and capture intriguing new perspectives and details. Just as the buildings themselves were created to last, our interest in the structures themselves, the people who created them, and the purposes for which they were made endures as well. This impeccably researched volume—a necessary addition to the bookshelf of anyone interested in architecture—celebrates this spirit of endurance and serves as a reminder that building well and leaving something of consequence behind, whether a building, a design, or an

idea, is still of the utmost importance. Face2Face second edition is a fully updated and redesigned edition of this best-selling general English course for adults and young adults who want to learn quickly and effectively in today's world. Based on the communicative approach, it combines the best in current methodology with innovative new features designed to make learning and teaching easier. By turning to drugs and alcohol, people who have suffered a loss can numb their grief. In the process, they postpone their healing and can drive themselves further into addiction. The Mindfulness Workbook for Addiction offers readers an effective program for working through their addiction and grief with cognitive behavior therapy (CBT), dialectical behavior therapy (DBT), and acceptance and commitment therapy (ACT). Created by a

psychologist who works for the Department of Veterans Affairs and a marriage and family therapist who works for Sharp Mesa Vista Hospital, this mindfulness training workbook is effective for treating the emotion dysregulation, stress, depression, and grief that lie at the heart of addiction. No matter the loss, the mindfulness skills in this workbook help readers process their grief, determine the function their addiction is serving, and replace the addiction with healthy coping behaviors. Drawing upon a six-year research project at the Stanford University Graduate School of Business, James C. Collins and Jerry I. Porras took eighteen truly exceptional and long-lasting companies and studied each in direct comparison to one of its top competitors. They examined the companies from their very beginnings to the present day -- as start-ups, as midsize companies, and as large corporations. Throughout, the authors asked: "What makes the truly exceptional companies different from the comparison companies and what were the common practices these enduringly great companies followed throughout their history?" Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels, *Built to Last* provides a master blueprint for building organizations that will prosper long into the 21st century and beyond. *Built to Last* is not an introduction to network marketing.
