Pioneer Days in the Black Hills is a rough-and-tumble account of the early days of Deadwood, Dakota Territory. In 1874, after leading an expedition into the Black Hills, George Armstrong Custer announced that he had found gold "among the roots of the grass." Almost overnight a number of settlements sprang into existence. Among them was Deadwood. In April 1876, John S. McClintock arrived in search of gold. Entering a series of speculations and employments that won him moderate prosperity, he made Deadwood his home. During his later years, he wrote his memoirs, presented here for the first time in half a century. In this volume, General Farrar-Hockley completes the account of Britain's part in the Korean War, from January 1951, when the United Nations' forces seemed about to be overwhelmed by the Chinese Communist Forces, to the armistice in the summer of 1953. With 418 contributors representing over 120 medical centers from around the world, this book comprehensively covers the entire field of emergency medicine -- from prehospital

It is more concise and easier to read than some, yet it covers the breadth of emergency medicine practice more comprehensively than others....Just as previous editions did, the seventh presents all of the most pertinent and up-to-date information in a well-organized format that is comprehensive yet easy to read. That and many of the attractive new features in this current edition will ensure its place on my bookshelf for years to come." —JAMA Morality and the Market is a business ethics anthology unlike any other.
