Occult Imperium Mar 23 2022 Christian Giudice's *Occult Imperium* explores Italian national forms of Occultism, chiefly analyzing Arturo Reghini (1878-1946), his copious writings, and Roman Traditionalism. Trained as a mathematician at the prestigious University of Pisa, Reghini was one of the three giants of occult and esoteric thought in Italy, alongside his colleagues Julius Evola (1898-1974) and Giulian Kremmerz (1861-1930). Using Reghini's articles, books, and letters, as a guide, Giudice explores the interaction between occultism, Traditionalism, and different facets of modernity in early-twentieth-century Italy. The book takes into consideration many factors particular to the Italian peninsula: the ties with avant-garde movements such as the Florentine Scapigliatura and Futurism, the occult vogues typical to Italy, the rise to power of Benito Mussolini and Fascism, and, lastly, the power of the Holy See over different expressions of spirituality. *Occult Imperium* explores the convergence of new forms of spirituality in early twentieth-century Italy.

Under Arturo's Star Dec 20 2021 Elsa Morante has long been recognized internationally as one of the most significant, innovative, and important writers of the 20th century Italy. Nonetheless, there has, to date, been no full-length study in English dedicated to her work. Critical perspectives on Morante's literary achievement have shifted dramatically in recent years, and while this volume proposes to offer the first comprehensive evaluation of Morante to appear outside Italy, it also aims to take into account modern critical and theoretical developments. The authors' aim is to underline Morante's centrality in a broader context which goes beyond Italian national frontiers and deserves critical attention across a range of transcultural disciplines, departing from the traditional realm of philological analysis to encompass approaches informed by cultural and interdisciplinary studies. This volume gives a comprehensive insight into current thinking on and understanding of Elsa Morante's work. This book places her work in a much wider context of European culture, and traces her influence on a younger generation of writers.

Youth and Their Families Dec 08 2020 Though a number of books covering adolescent substance abuse are available, there are very few resources that explore the topic in the context of Family Systems Therapy (FST). *Youth and Their Families* offers an expanded view of the therapeutic process with a specific focus on the relationship between therapists, adolescents, families, communities, and substance use. By applying an FST lens, the clinician learns to view their client as an entire family system being affected by adolescent substance abuse. Furthermore, FST can be used at every stage of the substance abuse intervention continuum (from prevention to intervention) to provide increased functioning and strength in the family system. This book incorporates easily applicable clinical skill acquisition with the use of lively cases to give the reader requisite skills to be an effective family systems therapist.

Global Governance of the Environment, Indigenous Peoples and the Rights of Nature Jul 03 2020 This book explores the obstacles facing indigenous communities, non-governmental organizations, governments, and international institutions in their attempts to protect the cultures of indigenous peoples and the world's remaining rainforests. Indigenous peoples are essential as guardians of the world's wild places for the maintenance of ecosystems and the prevention of climate change. The Amazonian/Andean indigenous philosophies of *sumac kawsay/suma qamaña* (buen vivir) were the inspiration for the incorporation of the Rights of Nature into the Ecuadorian and Bolivian constitutions of 2008 and 2009. Yet despite the creation of the United Nations Permanent Forum on Indigenous Issues (2000), and the adoption of the United Nations Declaration on the Rights of Indigenous Peoples (2007), indigenous peoples have been marginalized from intergovernmental environmental negotiations. Indigenous environment protectors' lives are in danger while the Amazon rainforests continue to burn. By the third decade of the 21st century, the dawn of "woke" capitalism was accompanied by the expansion of ethical investment, with BlackRock leading the field in the "greening" of investment management, while Big Oil sought a career change in sustainable energy production. The final chapters explain the confluence of forces that has resulted in the continued expansion of the extractive frontier into indigenous territory in the Amazon, including areas occupied by peoples living in voluntary isolation. Among these forces are legal and extracurricular payments made to individuals, within indigenous communities and in state entities, and the use of tax havens to deposit unofficial payments made to secure public contracts. Solutions to loss of biodiversity and climate change may be found as much in the transformation of global financial and tax systems in terms of transparency and accountability, as in efforts by states, intergovernmental institutions and private foundations to protect wild areas through the

designation of national parks, through climate finance, and other “sustainable” investment strategies.

Diasporic Blackness Mar 30 2020 Examines the life of Arturo Alfonso Schomburg through the lens of both Blackness and latinidad. A Black Puerto Rican–born scholar, Arturo Alfonso Schomburg (1874–1938) was a well-known collector and archivist whose personal library was the basis of the Schomburg Center for Research in Black Culture at the New York Public Library. He was an autodidact who matched wits with university-educated men and women, as well as a prominent Freemason, a writer, and an institution-builder. While he spent much of his life in New York City, Schomburg was intimately involved in the cause of Cuban and Puerto Rican independence. In the aftermath of the Spanish-Cuban-American War of 1898, he would go on to cofound the Negro Society for Historical Research and lead the American Negro Academy, all the while collecting and assembling books, prints, pamphlets, articles, and other ephemera produced by Black men and women from across the Americas and Europe. His curated library collection at the New York Public Library emphasized the presence of African peoples and their descendants throughout the Americas and would serve as an indispensable resource for the luminaries of the Harlem Renaissance, including Langston Hughes and Zora Neale Hurston. By offering a sustained look at the life of one of the most important figures of early twentieth-century New York City, this first book-length examination of Schomburg’s life suggests new ways of understanding the intersections of both Blackness and latinidad.

Should A Christian Be A Mason? Jun 13 2021 ... If you are a Mason, or are thinking of becoming one ... If you are not a Mason, but want to understand Masonry in the light of Christianity and the Bible ... If you are a Christian, and you think Masonry is completely compatible with Bible-believing Christianity This book is for you. Using quotations from the official publications of Masonry, author David Daniels will help you to find out what Masonry teaches, compared to what the Bible says. For Christians, the Bible is our only reliable source to learn who God is, and what He wants for us, including how to get our sins forgiven and have eternal life in heaven with Him. You must be able to answer this question with confidence and understanding: "Should a Christian be a Mason?" To do that, we need to find out these things: Where did Masonry come from? What do Masons believe? Who can we trust for our information? Who is God, according to these trusted authorities? Is the God of the Bible the same as the god of Masonry? By the end of this book you will be able to answer these questions for yourself.

Arturo's Island: A Novel Jan 09 2021 Elsa Morante’s novels are “astonishing for the quality of the writing, . . . the complexity of the invented world, the wide-ranging view of the human condition” (Elena Ferrante). Once considered the greatest writer of Italy’s postwar generation—and admired by authors as varied as John Banville and Rivka Galchen—Elsa Morante is experiencing a literary renaissance, marked not least by Ann Goldstein’s translation of Arturo’s Island, the novel that brought Morante international fame. Imbued with a spectral grace, as if told through an enchanted looking glass, the novel follows the adolescent Arturo through his days on the isolated Neapolitan island of Procida, where—his mother long deceased, his father often absent, and a dog as his sole companion—he roams the countryside and the beaches or reads in his family’s lonely, dilapidated mansion. This quiet, meandering existence is upended when his father brings home a beautiful sixteen-year-old bride, Nunziatella. A novel of longing and thwarted desires, filled with Morante’s “brutal directness and familial torment” (James Wood), Arturo’s Island reemerges in this splendid translation to take its rightful place in the world literary canon.

The Development Dictionary Aug 16 2021 In this pioneering collection, some of the world's most eminent critics of development review the key concepts of the development discourse in the post-war era. Each essay examines one concept from a historical and anthropological point of view and highlights its particular bias. Exposing their historical obsolescence and intellectual sterility, the authors call for a bidding farewell to the whole Eurocentric development idea. This is urgently needed, they argue, in order to liberate people's minds - in both North and South - for bold responses to the environmental and ethical challenges now confronting humanity. These essays are an invitation to experts, grassroots movements and students of development to recognize the tainted glasses they put on whenever they participate in the development discourse.

The Lost Boy, the Doodlebug and the Mysterious Number 80 Sep 16 2021 This is an eclectic and thought-provoking book, best defined as a modern day fairy tale in which the dreams and lives of four people are inexorably linked together across time, bound by love, friendship,

heartache and fate During the London Blitz a young woman, Iris, has a vision while reading Tarot cards of two lovers in great peril and knows it will be her destiny to help them. Meanwhile Robert, a wounded and repressed Battle of Britain pilot, dreams of happiness and of a love he believes he can never have. In another time, Charlie, a troubled little boy with amazing blue-green eyes growing up in the repressed suburbs of 1950s South London, dreams of the number '80' and knows only that it means something terrible and evil. Elsewhere, a dark, disturbed man dreams repeatedly of Charlie and knows it is his destiny to kill him. This time-travelling tale moves between present day Dulwich, World War Two London, the gay bars of the 1970s, Eva Peron's Buenos Aires and Glastonbury Tor in 1989. It is a tale of great love and loss, destiny, tragedy, spiritual transformation and self-acceptance. It asks questions about how much of our lives are destined and how much can be altered and about what the effects of unintentional time travel would be on very ordinary people. This book can be interpreted on many different levels. On one it is a murder-mystery, on another an allegorical tale of spiritual transformation, on a third, a complex tale of two gay men's individual journeys into adulthood and on a fourth, a simple and beautiful love story.

The Path of Freemasonry Apr 23 2022 • Shares the history and meaning of Freemasonry and its symbols • Offers thoughtful explorations of different areas of Masonic experience, drawing on esoteric doctrines and paralleling them with experiences found in daily life • Provides simple exercises and practices to help internalize and personalize the lessons presented, including dreamwork, journaling, meditation, and prayer In this practical guide, Mark Stavish details the spiritual lessons and rituals of Freemasonry as a step-by-step path of spiritual development and self-improvement for both Masons and non-Masons, men and women, alike. He explores the history and meaning of Freemasonry and its symbols--from its origins in the Temple of Solomon to the Medieval craft guilds to the Renaissance--and explains how the Craft promotes personal growth through the symbolic building of self and an inner Temple of Wisdom in much the same way that Masonry's rituals symbolize the building of Solomon's Temple in accordance with the mystical architectural instructions of Hiram. Drawing on esoteric doctrines, including the Qabala, alchemy, sacred geometry, John Dee's angelic magic, and the secrets of the Gothic cathedral builders, each chapter addresses an area of the Masonic experience, paralleling them with experiences each of us finds in our own lives. The author provides simple practices to help internalize and personalize the lessons presented, including dreamwork, journaling, meditation, prayer, and understanding sacred architecture. The author also examines the crafting and use of the spiritual and symbolic tools of Freemasonry, such as the trestle or tracing board and the Chamber of Reflection. Providing the tools to make the Craft an initiatic experience of self-improvement, the author shows that, ultimately, the Masonic

experience is the human quest for self-realization and self-expression, so that we each may find our place in the Temple of Wisdom.

Vampires of Portlandia Dec 28 2019 "Tanamor's *Vampires of Portlandia* is an entertaining vampire thriller with all the recognizable hallmarks of the supernatural genre, but two things distinguish this book from others: its focus on the aswang, a creature based on the author's research on Philippine folklore combined with his own inventions, and the book's beating heart, the family of aswang fleeing state violence in the Philippines and seeking refuge in the sanctuary city of Portland, Oregon. As a page-turner full of gory action, it also manages to be a touching story about family, love, and legacy." - Grace Talusan, author of *The Body Papers* "Here's a novel from Jason Tanamor that rocks Filipino folklore, shape shifters, vampires, and quick moving, tricky, balls-out adventure, and it's a helluva lot of fun." - John Shirley, author of *Black Butterflies: A Flock on the Dark Side* "There are moments of storytelling that stand out... Those who enjoy the 'Twilight' books or TV series 'Grimm' may find this entertaining. Portland enthusiasts will also appreciate the references." - Library Journal "...creative world building of Portland's supernatural underworld...the most devoted vampire enthusiasts will find this rewarding." - Publishers Weekly When Marcella Leones relocates her family of aswang vampires from the Philippines to Portland, Oregon, she raises her grandchildren under strict rules so humans will not expose them. Her only wish is to give them a peaceful life, far away from the hunters and the Filipino government that attempted to exterminate them.
