From the New York Times bestselling author of Churchill, a towering historical biography, available for the first time in paperback. William Gladstone was, with Tennyson, Newman, Dickens, Carlyle, and Darwin, one of the stars of nineteenth-century British life. He spent sixty-three of his eighty-nine years in the House of Commons and was prime minister four times, a unique accomplishment. From his critical role in the formation of the Liberal Party to his preoccupation with the cause of Irish Home Rule, he was a commanding politician and statesman nonpareil. But Gladstone the man was much more: a classical scholar, a wide-ranging author, a vociferous participant in all the great theological debates of the day, a voracious reader, and an avid walker who chopped down trees for recreation. He was also a man obsessed with the idea of his own sinfulness, prone to self-flagellation and persistent in the practice of accosting prostitutes on the street and attempting to persuade them of the errors of their ways. This full and deep portrait of a complicated man offers a sweeping picture of a tumultuous century in British history, and is also a brilliant example of the biographer's art. We've pursued and achieved the modern dream of defining ourselves—but at what cost? An influential columnist and editor makes a compelling case for seeking the inherited traditions and ideals that give our lives meaning. "Ahmari's tour de force makes tradition astonishingly vivid and relevant for the here and now."—Rod Dreher, bestselling author of Live Not by Lies and The Benedict Option As a young father and a self-proclaimed "radically assimilated immigrant," opinion editor Sohrab Ahmari realized that when it comes to shaping his young son's moral fiber, today's America is woefully lacking. For millennia, the world's great ethical and religious traditions have taught that true happiness lies in pursuing virtue and accepting limits. But now, unbound from these stubborn traditions, we are free to choose whichever way of life we think is most optimal—or, more often than not, merely the easiest. All that remains are the fickle desires that a wealthy, technologically advanced society is equipped to fulfill. The result is a society riven by deep conflict and individual lives that, for all their apparent freedom, are marked by alienation and stark unhappiness. In response to this crisis, Ahmari offers twelve questions for us to

grapple with—twelve timeless, fundamental queries that challenge our modern certainties. Among them: Is God reasonable? What is freedom for? What do we owe our parents, our bodies, one another? Exploring each question through the lives and ideas of great thinkers, from Saint Augustine to Howard Thurman and from Abraham Joshua Heschel to Andrea Dworkin, Ahmari invites us to examine the hidden assumptions that drive our behavior and, in doing so, to live more humanely in a world that has lost its way. What accounts for miraculous healings unexplainable by doctors? Is there a reality to spiritual healings? William Gladstone initially approached Dr. Zhi Gang Sha with some skepticism and disbelief. William believed that there was more to life than the material world, but he knew that the world has many dishonest and self-deceiving mystics. So he decided to explore. William, having studied medical anthropology at Harvard University, had met and worked with some of the greatest spiritual leaders on the planet. He was excited to explore Dr. Sha and his healing practices. William spent weeks with Dr. Sha watching him at work, talking to his students, and observing his healings. He interviewed him at length, asking for specifics and addressing difficult questions. He delved into the science behind Dr. Sha's work and explored the underlying concepts beneath these "miracle" healings. What William learned amazed him and opened his mind to possibilities he never expected. Dr. Zhi Gang Sha is a medical doctor trained in both Western medicine and traditional Chinese medicine, as well as ancient Chinese sacred energy and spiritual healing. Over the last decade, he has healed hundreds of thousands of individuals with thousands documented and available for viewing on YouTube. How does he do it? Is it the placebo effect or something much more profound? Dr. and Master Sha: Miracle Soul Healer documents the remarkable journey of a world renowned spiritual teacher and master healer who has not only demonstrated the ability to heal but also to teach people to heal themselves. Written for skeptics as well as believers, Dr. and Master Sha: Miracle Soul Healer explores the results and methodology of Dr. Sha's unique life journey and his stated life mission to serve humanity and the Divine and create a healthier and happier world. This book explores the ultimate mystery of how faith, science, and healing can change your life. Have you ever asked yourself why you are on planet Earth? And what the ultimate purpose for your life might be? Well, Jack Canfield asked himself this very question and came up with a surprising answer —part of which included a vision revealing that he is part of a "Golden Motorcycle Gang" —a gang whose intent is to have fun, but also to make significant contributions to the well-being of humanity. During a joyful dinner many years ago in Santa Barbara, California, Jack told his friend William Gladstone about the Gang. Upon hearing this account, William had an epiphany that Jack's story held a powerful underlying truth not only explaining Jack's true purpose, but William's as well. For more than ten years, William encouraged Jack to write a book based on the story of the Gang, so they have now collaborated on this work to show you its relevance to this critical moment in the history

of human civilization . . . and also to you, personally. As you read, you will be introduced to some of the extraordinary members of the Golden Motorcycle Gang, including visionary thinkers such as Barbara Marx Hubbard, the originator of the concept of Conscious Evolution. The mystery and adventure inherent in this book reveals that there is now the opportunity for all of us on planet Earth to make a quantum leap in real time toward choosing the actual course of our evolution. Along the way, we are meant to experience the joy that comes from recognizing who we really are. Perhaps, as you embark on Jack's journey along with him . . . you will find that you are also a member of the Golden Motorcycle Gang! So get ready for the adventure of your life! "...we now know in detail that there have been perpetrated, under the immediate authority of a Government, to which all the time we have been giving the strongest moral, and for part of the time even material, support, crimes and outrages, so vast in scale as to exceed all modern example, and so unutterably vile as well as fierce in character, that it passes the power of heart to conceive, and of tongue and pen adequately to describe them. These are

the Bulgarian horrors; and the question is, what can and should be done, either to punish, or to brand, or to prevent?" --W.E. Gladstone, Bulgarian Horrors and the Question of the East The Great Eastern Crisis began in 1875 when the Balkan provinces Serbia and Montenegro rose up against the Ottoman Empire. In Britain, the Conservative government of Benjamin Disraeli initially did not appear concerned about this crisis. However, this changed when the London newspaper The Daily News publicized the atrocities committed by the Ottomans against the Christians in Bulgaria, and especially when the former Liberal Prime Minister William Gladstone published his pamphlet Bulgarian Horrors and the Question of the East (1876). In this fascinating publication, which sold 200,000 copies, Gladstone expressed his sympathies for the Balkan Christians and called for independence of the Balkan states. The Complete Master Key System builds on the classic work of Charles Haanel to teach contemporary audiences how to tap into their personal potential and manifest harmony, abundance, and fulfillment. Published in 1912, The Master Key System went on to influence Ernest Holmes, Napoleon Hill, and many others who sought to use mental power as a means of attaining success. In The Complete Master Key System, William Gladstone, Richard Greninger, and John Selby hark back to Charles Haanel's original text, and develop exercises that heighten readers' ability to implement Haanel's core principles. Their Daily Manifestation Sessions incorporate the most effective focusing methods used today and integrate ancient meditative techniques with new insights in cognitive psychology. The Complete Master Key System is packaged with Haanel's original Master Key System in the appendix and includes a foreword by Mark Victor Hansen and an afterword by Jack Canfield. This account of state-systems, which derives not from theoretical models but from the study of state-systems that have actually existed, emphasizes their moral or normative bases. It argues that a system of states presupposes a common culture. The essays deal with the concept of systems of states: the state-systems of Hellas; Hellas and Persia; the geographical and chronological boundaries of the modern states-system; international legitimacy; and triangles and duels. An introductory chapter by Hedley Bull draws the essays together and provides an account of Martin Wright's life and thought. In Venture Capital Handbook: Revised and Updated Edition, leading venture capitalist David Gladstone and Laura Gladstone walk you step-by-step through the entire VC funding process, showing exactly how to get funded fast -- without the trauma. This book is a 3-volume record of life and work of one of Britain's greatest leaders of all times William Ewart Gladstone (1809-1898). Gladstone was a British statesman and Liberal politician who, in a career lasting over 60 years, served for 12 years as Prime Minister of the United Kingdom, spread over four terms beginning in 1868 and ending in 1894. He also served as Chancellor of the Exchequer four times, serving over 12 years. Gladstone's own political doctrine - which emphasized equality of opportunity and opposition to trade protectionism - came to be known as Gladstonian liberalism. His popularity amongst the working-class earned him the sobriquet "The People's William". In 1868, Gladstone became Prime Minister for the first time. Many reforms were passed during his first ministry, including the disestablishment of the Church of Ireland and the introduction of secret voting. After electoral defeat in 1874, Gladstone resigned as leader of the Liberal Party. After the 1880 general election, Gladstone formed his second ministry (1880-1885), which saw the passage of the Third Reform Act as well as crises in Egypt and Ireland, where his government passed repressive measures but also improved the legal rights of Irish tenant farmers. Back in office in early 1886, Gladstone proposed home rule for Ireland but was defeated in the House of Commons. The resulting split in the Liberal Party helped keep them out of office - with one short break - for 20 years. Gladstone formed his last government in 1892, at the age of 82. The Government of Ireland Bill 1893 passed through the Commons but was defeated in the House of Lords in 1893. Gladstone left office in March 1894, aged 84, as both the oldest person to serve as Prime Minister and the only Prime Minister to have served four terms. The year 2012 didn't mark the end of civilization as many had mistakenly predicted. Rather, it marked a turning point in human consciousness, a shift toward a more humanistic, less violent existence. But not if Arnold Wheeler can help it. Arnold is The Grand Light and Keeper of the Code of the Illuminati, which quietly and covertly control every major development on Earth. He is quite aware of the universal shift in consciousness predicted by the Mayans long ago. With this shift, humanity has the opportunity, for the first time, to reach its full potential. Except the Illuminati have other plans. William Gladstone, author of the bestselling *The Twelve*, takes readers on a roller coaster adventure that features George W. The problems keep mounting. The clock keeps ticking. And by the end, readers will be wondering what is real, what is not, and how they can prepare their own lives for a world that is so rapidly changing. William Ewart Gladstone PC FRS FSS was a British statesman and Liberal politician. In a career lasting over 60 years, he served for 12 years as Prime Minister of the United Kingdom, spread over four terms beginning in 1868 and ending in 1894. He also served as Chancellor of the Exchequer four times. The letters of Richard Cobden (1804-1865)' provides, in four printed volumes, the first critical edition of Cobden's letters, publishing the complete text in as near the original form as possible. The letters are accompanied by full scholarly apparatus, together with an introduction to each volume which re-assesses Cobden's importance in their light. Together, these volumes make available a unique source of the understanding of British liberalism in its European and international contexts, throwing new light on issues such as the repeal of the Corn Laws, British radical movements, the Crimean War, the Indian Mutiny, Anglo-French relations, and the American Civil War. The fourth and final volume, drawing on some forty-six archives worldwide, is dominated by Cobden's search for a permanent political legacy at home and abroad, following the severe check to his health in the autumn of 1859. In January 1860, he succeeded in negotiating the Anglo-French Commercial Treaty, a landmark in Anglo-French relations designed to bind the two nations closer together, and to provide the basis for a Europe united by free trade. Inspired by Hannah Arendt's discussion of the Victorian Tory politician and novelist Benjamin Disraeli as a Jew who fought back, this book explores the complex ways in which mid-Victorian discourses of identity and belonging were interwoven with discourses of race. The book looks at Disraeli's response to the antisemitism of the period, leading him to become convinced that race was the key to understand how society works. It traces Disraeli's use of the category of race as a pivotal idea of social difference and looks at how race intersected his thinking with class, culture, gender, nation, and empire. It also shows how Disraeli's "one-nation-politics" was dependent on the idea of empire and how his representations of both nation and empire became based on race. Many associate the Victorian era with austere social attitudes and filthy factories. But in this bold and provocative book, Jacob Rees-Mogg -- leading Tory MP and prominent Brexit advocate -- takes up the story of twelve landmark figures to paint a very different picture of the age: one of bright ambition, bold self-belief and determined industriousness. Whether through Peel's commitment to building free trade, Palmerston's deft diplomacy in international affairs, or Pugin's uplifting architectural feats, the Victorians transformed the nation and established Britain as a preeminent global force. Now 200 years since the birth of Queen Victoria, it is essential that we remember the spirit, drive and values of the Victorians who forged modern Britain, as we consider our future as a nation. An intriguing account of a woman at the heart of world politics, half a century before women had the vote The world was at a point of transition between the Victorian age and the modern world of the twentieth century. The Ottoman Empire was in decline, the European states were jostling for power in Africa, industrialization and the coming of the railway age had transformed society and the working man and woman were starting to fight for their right to education, suffrage and a better way of life. Mary Gladstone was daughter and private secretary to William Gladstone, the eminent Liberal Prime Minister of the later Victorian age. Throughout the 1880s and 1890s she was at the heart of British politics, campaigning for her father, dealing with official correspondence and controlling access to the Prime Minister as well as disseminating and controlling information from the PM both to the press and to his ministers. This biography of Mary focuses on the period during which she was working with her father up to his death in 1898. It covers a crucial period in British history including Gladstone's attempts to give home rule to Ireland, brinkmanship in the Balkans, the height of the Empire and domestic reform such as universal male suffrage and elementary education for all. Sheila Gooddie is now a full time writer and author of two previous books. * An insight into the workings of politics in the final years of the Victorian era and at the height of the days of Empire * Adds a different perspective on William Gladstone, a giant of the Victorian age * Based on private letters as well as official documentation This is the first modern scholarly edition of the letters and memoirs of Joseph Severn, English painter and deathbed companion of John Keats. It includes

letters from a remarkable collection of never-before-published correspondence held by descendants of the Severn family. Scott's unprecedented access to hundreds of new letters has resulted in a major revisionist work that challenges traditional ideas about Severn's life and character. The edition includes new information about Severn's early artistic success in Italy, an extraordinarily thorough record of his day-to-day activities as a working artist in England, and surprising details about his experience as British Consul in Rome. The volume represents a significant work of recovery, printing in full three important memoirs that have until now appeared only in inaccurate excerpts and offering thirty-three illustrations that demonstrate the range of Severn's talents as a painter. Scott makes a compelling case for a reevaluation of Severn, whose friends also included Charles Eastlake, William Gladstone, Leigh Hunt, John Ruskin, and Mary Shelley. This collection will prove valuable not only to literary biographers and Keats scholars, but also to art and cultural historians of the Romantic and Victorian eras. Adding significantly to the volume's usefulness are a detailed chronology of Severn's life and artwork, and appendices containing an index of the newly discovered letters and a ledger of Severn's patrons, paintings and commissions. Reproduction of the original: The Life of William Ewart Gladstone (Vol 2 of 3) by John Morley Tony Blair has often said that he wishes history to judge the great political controversies of the early twenty-first century--above all, the actions he has undertaken in alliance with George W. Bush. This book is the first attempt to fulfill that wish, using the long history of the modern state to put the events of recent years--the war on terror, the war in Iraq, the falling out between Europe and the United States--in their proper perspective. It also dissects the way that politicians like Blair and Bush have used and abused history to justify the new world order they are creating. Many books about international politics since 9/11 contend that either everything changed or nothing changed on that fateful day. This book identifies what is new about contemporary politics but also how what is new has been exploited in ways that are all too familiar. It compares recent political events with other crises in the history of modern politics--political and intellectual, ranging from seventeenth-century England to Weimar Germany--to argue that the risks of the present crisis have been exaggerated, manipulated, and misunderstood. David Runciman argues that there are three kinds of time at work in contemporary politics: news time, election time, and historical time. It is all too easy to get caught up in news time and election time, he writes. This book is about viewing the threats and challenges we face in real historical time. Through her marriage to Edward, whose career would take him from success as a young head schoolmaster to become Archbishop of Canterbury, Mary Benson came to preside over Lambeth Palace and a social circle that ranged from famous politicians and celebrated writers to Queen Victoria herself. But Mrs Benson's most intense and intimate relationships were not with her husband, but with other women. Winner of the Whitbread Biography of the Year. William Gladstone was, with Tennyson, Newman, Dickens, Carlyle, and Darwin, one of the stars of nineteenth-century British life. He spent sixty-three of his eighty-nine years in the House of Commons and was prime minister four times, a unique accomplishment. From his critical role in the formation of the Liberal Party to his preoccupation with the cause of Irish Home Rule, he was a commanding politician and statesman nonpareil. But Gladstone the man was much more: a classical scholar, a wide-ranging author, a vociferous participant in all the great theological debates of the day, a voracious reader, and an avid walker who chopped down trees for recreation. He was also a man obsessed with the idea of his

own sinfulness, prone to self-flagellation and persistent in the practice of accosting prostitutes on the street and attempting to persuade them of the errors of their

ways. Gladstone, by historian and eminent politician Roy Jenkins, is a full and deep portrait of a complicated man, offering a sweeping picture of a tumultuous century in

British history, and is also a brilliant example of the biographer's art.
