"Pressestimmen Absorbing anecdotes season the story. And given the book's length, the authors naturally spotlight some personalities and units more than others. But Kagero capably recaps the whole story - including international use. If you're seeking compact coverage of 'Emil' operations, this handy handbook superbly fits the bill. Dozens of photos and color plates season the visual feast. And scale drawings, selected sources and illuminating endnotes neatly wrap things up. Make it part of your Luftwaffe library.
