Johnston traces the development of letterforms & type, & the use & application of formal writing. Among the topics of importance to calligraphers & designers are the value of decoration, its proper application, & its practice & usage. Includes diagrams of page layouts illustrating how calligraphy is applied to book work. The essay was handlettered in 1930 by John C. Tarr, a former student of Johnston's, to illustrate the teachings of his past master. The pages were sewn into a simple paper over boards binding with a cloth spine. It was originally published in book form in 1971. This new edition re-introduces the book to a new audience.

The very properties of platinum that had made it so hard to work with became valued and platinum was used for lab equipment and other applications where its broad chemical resistance was required johnson matthey perfected the techniques of separating and refining the platinum group metals and in 1879 matthey produced a standard metre measure made of a platinum and iridium alloy
